- Use R to write algorithms that analyze and dissect data

Web Developer 04/2018—07/2018 **Energyn Inc.**

- Build and manage static company website using HTML, CSS, & Javascript/jQuery

PROJECTS

Name: Personal Portfolio

URL: <https://oscarlee1.github.io/portfolio>

Description: I built this project in efforts to showcase my abilities in UX/UI design, as well as front-end development using HTML, CSS, and Javascript. This project was developed using React.js and Google Firebase's database management features.

Name: CAMPVS

URL: <https://www.campvs.com/>

Description: This is a project I worked on as a UX/UI Intern at CAMPVS, and it was developed using Wordpress, HTML, and CSS.

Name: MOWA Digital

URL: <http://www.mowa.nyc>

Description: This is the agency website I developed as a front-end developer at MOWA Digital, built using HTML, CSS, and vanilla Javascript.

Name: Energyn Inc.

URL: <http://energyninc.com>

Description: This is a website I built in my junior year of high school alongside two other friends. Built using HTML, CSS, and Javascript/jQuery

EDUCATION

AS Mercer County Community College, West Windsor Township, NJ 08550
09/2019—08/2021
